This Week's Goal

Write what you will revise in each box, then tick it when it is done. A session is 25 focused minutes; a quick win is a short, easy 10-minute task, such as learning five formulas. You don't have to fill every box: most students do 20 to 30 minutes of maths on most days.

Topic Tracker

Write a topic in each row and colour one circle to rate it (Check 1). Rate it again two weeks later (Check 2) and again a month later (Check 3). The aim is to turn every row green.

What Do Red, Amber and Green Mean?

 **Red** = "I can't do this yet"

 **Amber** = "I'm nearly there, but I make mistakes"

 **Green** = "I can do this in an exam"

These match the **Not Yet**, **Nearly** and **Confident** buttons on the free online revision checklists. A **red topic** is simply a topic your child rated red.

Little and Often Wins

20 to 30 minutes of maths on most days, every week, will do more than one long session the night before a test.
